## Safety for the 4th

Please remember that fireworks are not allowed in the community and the safest way to enjoy them is at a public display. Even sparklers are dangerous - they reach 1500 degrees and aren't suitable for children. Consider providing glow sticks to children to enjoy while watching public fireworks displays - with trained professionals and emergency response personnel on hand. Please have a safe and happy Fourth of July. We really want to see you safe and happy on the Fifth of July, as well.
